HOAGLAND'S
NEW PATENT SHAFT COUPLING!
W. E. COOPER
HAS PURCHASED THE RIGHT FOR THIS County of the above Patent and will hereafter use it in the construction of all the Vehicles manufactured at his extensive
Carriage Factory,
Corner of Second and Morrison Streets
He respectfully refers to the following
CARD.
Having examined the New Patent Shaft Coupling invented by H. R. Hoagland we feel pleasure in informing the public that in our opinion it is the safest and best method for connecting shafts or tongue to vehicles that has ever been used
It fastens without bolt or screw and is therefore easily and speedily separated. It rests on Gutta Percha so as to be entirely free from the rattling sound which so often disturbs restless horses. It is easily changed so that the shafts or tongue may be detached in an instant, and is convenient safe and secure
It is easy to change to this style of coupling any buggy or other vehicle now in use and with small expense. We have come to the conclusion to use this new invention ourselves and would use it in all cases. We consider it far superior to the Brewster Patent heretofore considered the best in use

EDITOR OREGONIAN:

Thinking you might wish to hear something from Eastern Oregon I have organized myself into a Committee of one to act as your correspondent. To begin I will notice the merits of the several political speakers who have considered this part of the country worthy of their notice The Hon Joseph G Wilson and his opponent J H Slater of this place have made their tour in the different parts of the mines in Baker county where Slater had started to canvass alone To his surprise he was overhauled by Mr Wilson his opponent at Baker City who assured the gentleman that now he had caught him he would stay with him and if need be would sleep with him and that there should be no sneaking or dodging I had the pleasure of hearing them at Eldorado Baker City Union and at this place At Eldorado and Baker City the Democrats gave Wilson the credit of making a good speech and were much interested and surprised and expressed themselves very sorry that they could not say so much for Slater and some of them promised me they would vote the Republican ticket this election At Union Wilson handled Slater's arguments unmercifully Even Slater with his heretofore self boasted intelligence felt himself badly used up At this place Slater's old speech was again successfully contradicted torn to pieces and made ridiculous by the truthful arguments advanced by Mr Wilson Some of the Democrats of this place are under the impression that they have the best side of the question but they think Slater don't know it and they fear he is discouraged and that his mind is wandering The facts are that Slater to begin with, is below the standard of mediocrity He is a good lawyer and neighbor in a mountain country and ought to stay at home All that he knows politically he has learned by industriously studying a series of campaign pamphlets emanating from the office of the New York *Day Book* and Pomeroy's *Democrat*, together with Voorhees's speech makes out his old treasonable harangue Yet he warns the Republicans against voting for negro equality himself well knowing that there is only two negroes in the county, and they both females, and that they share the board &c of one of the most wealthy and influential Democrats in the country The unlawful Fourteenth and Fifteenth amendments are diseases which worry him awfully and with which he is extremely mortified because he cannot make them contagious "Equitable adjustment" he claims as a disease which he alone understands I was amused at his trying to treat the idea that the poor laboring man was paying a heavy tax toward the support of the Government, when if he was at all posted he would have known that there is not one single laboring man, either farmer drover or mechanic in this county, that last year gave in one single dollar income to the U S Internal Revenue Assessor Nevertheless the citizens of this county do have to pay heavy taxes This tax however is collected by the Sheriff and used to defray the expenses created by Democratic office holders. Notwithstanding the heavy tax which they levy and collect, they have got the county heavily in debt which when told of they in accordance with their refined intelligence, answer by saying that it is a "dirty lie." I will now pass to our candidate for Governor Gen Palmer and his opponent, Mr Grover, made us a call They were accompanied by his excellency, Governor Woods, who spoke for our next Governor, General Palmer Mr Grover opened the debate at this place He commenced his remarks by claiming the fourteenth and fifteenth amendments was and are un-con-sti-tu-tion-al. Equitable adjustment he claimed, meant paying the bonded debt in greenbacks and then repudiating the greenbacks He said the old condition of Democracy was opposed to a general system of internal improvements, but does not think it ought to apply to Eastern Oregon especially should he be elected Every person voting for him is to have a railroad running through his dooryard In fact he has promised everything imaginable and what every intelligent man knows to be beyond his power, even were he so inclined. After he concluded his sophistry, General Palmer arose made a short, telling speech, and introduced Governor Woods, who handled Grover's remarks roughly and convinced his audience that the Democratic party are striving by their actions to break down the credit of our Government by repudiation of our just and honest debts, and that they are bitterly opposed to internal improvements which concerns us all, and most particularly in this locality

The party have returned from the canvass of Baker county and from every place they visited we hear encouraging reports of the effective work of Gen Palmer and Gov Woods and of the enthusiasm and confidence of the Republicans Gen Palmer has many old acquaintances in Eastern Oregon all of whom are warm friends, and he has made many new ones You may look confidently for a good report from them in June As far as the Congressman is concerned, we consider it a foregone conclusion that Wilson will be elected The countenances of the most sanguine of the Democrats belie their words when the subject is touched and many of the less ultra and indifferent of the Democrats are betting on our champion, Hon J G Wilson

Umatilla Republican Convention

The Republicans of Umatilla county held their county convention at Swift's Station on Tuesday May 3d The following are the resolutions adopted and the ticket placed in nomination

Resolved By the Union Republican Convention of Umatilla county

1st. That we condemn the reckless policy under which the county of Umatilla has fallen in debt without any just cause

2d That we pledge ourselves that we will use all honorable means and urge more strongly than ever the repeal of the present law adding thirty three and one third per cent. to the fees of county officials

3d That if we succeed in the election of our nominees for county officials they pledge themselves to make a semi annual exhibit of the financial condition of the county so that the tax payers may know how the debt stands at all times

4th That we require such legislation at the hands of our Senator and Representatives as shall protect our citizens who are known as teamsters and packers from the payment of the outrage us taxes imposed upon them when making trips to Idaho Territory

The following persons were then placed in nomination

State Senator [illegible] Perkins
Representatives Thomas K McCoy John S White
Sheriff—J I Bushee
Clerk J C Franklin
Treasurer D A Robards
County Commissioners—J S [illegible] Augustus Hill
Assessor J W Marquis
Surveyor J H Starron
School Superintendent [illegible]
Coroner Dr John Teal

The proceedings were harmonious and the spirit of hope which prevailed on all hands and now prevails among the Republicans of the county surpasses anything ever before known among them. We have the most cheering information from all parts of [illegible] the Republican strength and a prospect of a general falling off of the Democratic vote. Our friends [illegible] if they do not elect a part of their ticket will give the Democrats the biggest scare they ever had in their lives

The Democracy of Newcastle Del have determined that they will not ask a negro to vote their ticket, but if a negro asks for one of their tickets they will not rudely refuse to give it to him

The Daily Oregonian.

MONDAY MORNING, MAY 9, 1870.

Pendleton Dethroned—Voorhees Exalted.

It would seem that Dan Voorhees of Indiana, is about to supplant Greenback George of Ohio, in the affections of the "Democracy." We hear nothing of Pendleton nowadays. Voorhees is all the rage. The reason of this is that Voorhees is much more a repudiator than Pendleton, and therefore is coming nearer to the hearts of the "Democracy"—a majority of whom are wedded irrevocably to the idea of repudiation in some form. Accordingly the whole repudiation press is sounding the praises of Voorhees; and Pendleton, who was once extolled to the skies, is quite forgotten.

In Oregon the Democratic party have quit the Pendletonian idea of "paying" the public debt in greenbacks, and, as they say, have advanced a step further. They now say that more than half the debt should be repudiated outright, because it was "increased more than two-fold by venal, illegal and unjustifiable means." This idea was borrowed from one of Voorhees' speeches, several thousand copies of which have been scattered throughout the State. And now still another speech from the same enlightened authority is announced. It is to be issued by the repudiation organ of this city as another "repudiation extra," and people are expected to be captivated by so great a display of financial wisdom. To show the quality of the speech we give a brief extract, which is neither better nor worse than many maudlin columns of the same production:

> The loud pretense that it [the debt bearing interest in coin] has been diminished a single dollar, is simply a partisan falsehood now responding from one ocean to the other from partisan lips, and in the columns of a partisan press. I hold in my hand the official "statement of the public debt of the United States, March 1, 1870," the first day of the present month. It is signed by "George S. Boutwell, Secretary of the Treasury." I read from it in your presence as follows:

Debt bearing interest in coin.	
Bonds at five per cent	$ 221,589,300
Bonds at six per cent	1,886,350,350
Amount outstanding	$2,107,939,650

> Two thousand one hundred and seven millions nine hundred and thirty nine thousand six hundred and fifty dollars. I now declare to you that the "debt bearing interest in coin" was less than this amount on the first day of March, 1869, a little more than a year ago. The books of the Department are of easy access to the friends of the Administration. I repeat that the debt bearing interest in coin has grown larger instead of smaller in the hands of the party that claims to have paid off more than eighty millions. If the records will refute this statement let them be produced. I have verified it from official sources, and I challenge investigation and defy contradiction. I made it upon the floor of the House within the last two weeks, and asked for a denial. No denial was made, but an explanation was tendered by the Chairman of the Committee on Appropriations. He said the bonds that had been redeemed had been placed in the sinking fund, and that they still bore interest! Is not this a marvelous mode of paying a debt? You are told that you have paid the principal, and yet you are to keep on paying the interest!

And here is the "statesman" whom the Democracy of Oregon are following! "I challenge," says this champion,—"I challenge investigation and I defy contradiction!" It seems that the astute Dan., in his financial calculations, has entirely ignored the sinking fund; and it is certain that he has manifested an entire ignorance of its mode of operation. The debt statement every month shows as large a debt bearing gold interest as when Gen. Grant took the Government; but included in this statement is the amount of bonds purchased for the sinking fund, amounting now to one hundred millions of dollars. These bonds lie in the Treasury, and are the absolute property of the Government; yet the interest is paid on them or passed to their account every quarter, and then used immediately for the purchase of more bonds for the sinking fund, which bonds in their turn are dealt with in the same way. The Government is now paying interest to itself in this manner at the rate of six millions a year, and the amount is, of course, constantly increasing. This is the whole theory and operation of a sinking fund. Thus, while the debt bearing interest in gold is nominally as large as it was a year ago, it is in reality about one hundred millions smaller; and if we continue to support the sinking fund at present rates it will pay off the whole of the debt within twelve years. Vorhees says that no one in Congress has attempted a reply to his arguments. It was because they were too puerile and absurd for any intelligent member to notice. They would be a laughing stock in any rural debating society. But this eminent financial genius is accepted as the great light of the Oregon Democracy, and his utterances are the best arguments they have to offer!

"Bribery."

And now we have in the Democratic papers an account of another "unblushing attempt at bribery." It seems that the Superintendent of the United States buildings in course of erection in Oregon is employing a number of men to work at quarrying, boating and cutting stone. Certain very wise Democrats about Salem conceived the notion that the Government money was being employed by the "Radicals" for political purposes. Accordingly the brilliant idea flashed upon them of playing a little game which they were sure would "expose" the whole thing. They went therefore to a prominent Republican at Salem and got a letter to Mr. St. John of this city informing him that six men were to come down who wanted to go to the stone quarry in Washington Territory. It was expected that Mr. St. John would be so glad to get them off that he would pay their hotel bills here and give them money to pay their fare down the river. Then they were to take the boat for Salem next morning, go to the Democratic managers there and tell how it was done, and the story would be published far and wide as a good "sell" upon the "Radicals." Besides the Government officials would be connected with this little scheme of expending public money for party purposes. The six men came down here, and were told by Mr. St. John that if they wanted work they could have it, but they could not play any such "confidence game" as the one they proposed. Finding their scheme a failure they went back to Salem, and had the satisfaction of paying their own fare. Being very indignant they went to the manager of Grover's organ, which forthwith told a story of an "unblushing attempt at bribery!" The attempt to "bilk the Radicals" failed ignominiously, and the victims of their own "sell" are very mad about it. To put their own construction upon it, the "attempt at bribery" was simply this: Men being wanted for Government work (and we learn that more are still wanted), a Republican at Salem, advised this party who pretended that they wanted employment, to come down here and they could get it. The party, at the instigation of the Democratic managers, tried to play the game we have described, but got "sold" themselves. They didn't get the "bribe" they expected, and are terribly indignant at the "rascality of the Radicals."

Punishing the Weaker Vessels.

Once more the Albany *Democrat* comes for a tilt at the Oregon City *Enterprise*. The Albany organ has completely cowed the *Herald* of this city into silence, and the latter paper does not dare now to repeat the words it spoke at the beginning of the campaign. But the organ at Oregon City keeps up a feeble cry for repudiation; and against it the wrathful *Democrat* again turns its batteries. It calls the proposition of its brother at Oregon City "open, shameless robbery," and says that "equitable adjustment, as clamored for by the *Enterprise*, makes one exclaim, 'Oh equity! what crimes are sought to be committed in thy name!'" And to conclude, the *Enterprise* is denounced as the "advocate of the most stupendous robbery that was ever attempted to be perpetrated in any age or clime."

Now it strikes us that this is very much to the point. It shows, moreover, that there is a great deal of latent virtue in the Democratic party. But no manifestations of this virtue were seen until a considerable time had elapsed after the holding of the Albany Convention, and until it became apparent that repudiation was ruining the prospects of "the party." Then the *Democrat* put on the garb of honesty and struck at the repudiators right and left. But in the meantime those who were authorized by the Albany Convention to speak for the party had committed themselves in the most unmistakable manner to the doctrines which the *Democrat* combats, and they cannot now get away from the record they made.

We have shown by conclusive proof, and have established it by quoting from the *Herald* itself, that Mr. Slater and Col. Kelly are advocates of the very doctrine which the *Enterprise* has proclaimed, and which the *Democrat* pronounces to be "open, shameless robbery." Is the Albany paper going to permit these chief culprits, these leading repudiators, to escape unpunished, and pour out all its wrath on the poor little *Enterprise*? Or does it think they are so consequential as to be exempt from criticism for doing a thing which ought to be severely punished in a person of less distinction? In *Measure for Measure* the Duke is told by Isabella,—

> That in the captain's but a choleric word,
> Which in the soldier is flat blasphemy,—

and this seems to be the idea which the *Democrat* has adopted in chastising the weaker vessels of the party for sentiments which when uttered by the leading members it has no word of censure for and passes by without notice.

Editorial Notes.

Large Republican gains are reported in the municipal elections throughout New Jersey. The indications are that the State will go Republican by a decided majority in the next general election.

A correspondent of a Democratic organ, writing from Oregon city, wails piteously over the result in the municipal election at that place last week. He says: "I am no alarmist, but I am afraid that such is the beginning of acts to be repeated over again at the polls in June next." He may be sure of it. His prophetic soul does not deceive him.

A correspondent of the Democratic organ says that "the Republican party can never get the Irish vote by putting in competition their labor with the labor of the inferior races." We respectfully refer this observation to the Democratic candidate for Sheriff of this county, who has employed Chinese more largely, perhaps, than any other person in Portland.

The repudiation organ of this city denies that it favors repudiation, or that its party is committed to the doctrine. But Col. Chapman, who is an older and a better Democrat than any one connected with that paper, says that it has "sown the seeds of repudiation broadcast," and that he has tried to "eradicate them from the Democratic mind;" but intimates that he has had poor success. So this point is supported by the very best of Democratic testimony.

The Clatsop county Democratic Convention was a very sick affair. It was composed of just *eight* seedy hardshells. It would have been larger, but these were about all the persons who could be found in the county who could be considered "reliable Democrats." All the better portion of the party repudiate repudiation, and support the party that is doing something for them and for the country in the way of internal improvements.

Mr. Slater and other Democratic orators tell us that the Fifteenth Amendment has never been legally ratified, and is totally invalid. But Chief Justice Chase writes to the colored people of Cincinnati to "congratulate them that the principle of impartial suffrage has been at length incorporated in the Constitution." Which of these authorities is the better one? Let it it be observed also that Chief Justice Chase is now the most prominent Democratic candidate for the Presidency in 1872.

The person whose vanity induces him to print his name in the *Herald* as editor of that paper tries very many ridiculous devices to conceal the fact that he is author of those elegant articles signed "Grasshopper Jim," with which the columns of that sheet are so frequently adorned. But the sport of it is that, on every trial, he makes the fact that he would conceal more apparent than ever. We noticed in that paper a few days since a piece of writing signed "Sic Semper." The authorship of these "Grasshopper Jim" effusions would not be more apparent if they were habitually signed, "Sic Semple."

BRITISH COLUMBIA.

[From the Colonist to May 2d.]

On the 1st, the Carriboo express arrived with $30,000 in gold for the banks and in private hands.

Mining operations are still a little backward at Cariboo and few claims are yet taking out money, but the greatest confidence prevails in the result of the ensuing season's work.

The ship *Charybdis* is to be raised by a coffer dam. It is an immense affair and sits like a house afloat on the water. It will be placed in position as quickly as possible.

The H. B. Co's bark *Princess Royal*, Anderson, sailed from London for Vancouver Island on the 23d March, and the bark *Ada*, 413 tons, Fellsham, was loading at London at latest dates.

Lady Franklin arrived on the 29th ult., on the United States ship *Newbern*, looking remarkably well and vigorous for one who has almost reached fourscore years. Lady Franklin is accompanied by her niece and intends visiting Alaska, in the *Newbern* and spending some weeks in that interesting section. Her ladyship visited the colony in 1861, and passed some weeks pleasantly among us.

A Democratic victory is always followed by a strife over the spoils. In Connecticut the victors are already quarrelling over Governor English's staff. This would seem to be small enough matter for a "struggle," but there is considerable feeling developed, New Haven, Hartford and Norwich being considerably excited over the competition for the highly honorable but somewhat ornamental position on the staff of His Excellency.

OREGON.

The game of base ball has been revived at Salem.

The Oregon Presbytery of the Cumberland Presbyterian Church, in session in Salem last week, adjourned Saturday evening.

Messrs. J. F. Backensto and D. M. Thompson are the representatives from Albany Lodge No. 4, to the Grand Lodge of Odd Fellows.

The Albany *Register* announces a prize fight to come off this week between two Albany "bloods," for $25 a side. The justice's and constable's fees will probably swell the amount to over $50 to each "blood."

The Salem *Statesman* of Sunday says: "Rev. S. T. Miller started yesterday for the East. He goes to represent the Presbytery of the Cumberland Presbyterian Church of Oregon in the General Assembly of that denomination, which meets at Warrensburg, Mo., on the 19th of the present month."

Dr. Plummer, Superintendent of the Western Union Telegraph line, is engaged in overhauling the line from Eugene City to Portland, and will have it put in a thorough state of repair. As soon as he reaches Portland, he will return along the line and inspect it from there to Marysville, California.

At the annual election of the Oregon City Woolen Manufacturing Co. on Saturday, the following gentlemen were elected Directors: R. Jacob, W. S. Ladd, L. White, J. Jacob, and Isaac White. Officers of the Board of Directors: R. Jacob, President; L. White, Vice President; W. S. Ladd, Treasurer; Wm. E. Howell, Secretary.

A Story of the Campaign.

The Salem *Statesman* in the following article gives the history of that little expedition of Democratic voters down the river, who set out to "bilk the Radicals" and went back "sold" and swearing that an "unblushing" attempt had been made to "bribe" them:

> We are able to day to continue the story of the six roughs we spoke of yesterday, as coming up the river on the *Reliance*, escorted by Messrs. Stout, Fleischner and Patterson. It seems the "association" had succeeded in heading off and bringing back some Polk county Democrats who were leaving the State in disgust. They came to Salem several days ago and looking up Republicans here announced themselves as deserters from Bill Watkinds' army over in Polk, and asked for help to get employment. They were advised to go below and apply for work, which they did to some of the persons engaged on the public works or railroad, but their unprepossessing appearance did not work in their favor and no one proved anxious to give them a job, much less to pay them in advance as they desired. So they went to the Portland Democrats and made the best terms they could, and started back up the river as stated, with the distinguished gentlemen named above. They bled these guardian angels unmercifully all the way up, much to the profit of the steward, and they were not too drunk to make good terms with the "association" when they reached Salem. They never before appreciated the true value of their worthlessness. The negotiations proceeded until afternoon yesterday, when the documents these worthies were to sign being prepared, they must have insisted on cash in advance for each signature, for Bill Watkinds was seen travelling all over town, raising what he could here and there, but with the proceeds of his own liberality and that of Capt. Miller, the "retired artist in Indian vouchers," and of every other one who could be induced to contribute, he and Durbin were still short and went into the money market and borrowed $200 more, on their note of 30 days. Then, it seems, they were enable to induce the boys to sign the affidavits which may be looked for this morning. This being accomplished they sent the lovely birds back up the river. These chaps are bound to travel on their share a good deal before election day and to have lots of fun at Bill Watkinds' expense. The public can place what value it pleases upon statements which have been so well paid for.

The Atlanta *Constitution* tells of a lawyer of that city who *habeas corpused* a man out of the chain gang, and then sued him for divorce at the instance of his wife.

INCIDENTS IN LIFE.—Sometimes it happens that peculiarly funny [illegible] in courtship [illegible] Yesterday [illegible] East Portland [illegible] happened [illegible] It seems that a [illegible] young gent [illegible] the two [illegible] This [illegible] go buggy riding [illegible] Finding [illegible] states that [illegible] matter [illegible] her on Sunday [illegible] across early, [illegible] happened to get half an hour's start [illegible] with him [illegible] came back soon after [illegible] rendered his carriage in good condition to the livery establishment. The fortunate one returned in the evening [illegible] but he was reported to be in good spirits.

BOARD OF DELEGATES.—The Board of Fire Delegates met on Saturday evening at the usual hour.

Proceedings of last meeting read and approved.

Committee on Certificates reported in favor of granting exempt certificate to A. B. Richardson. Adopted.

Thos. M. Hurt appeared and was sworn in and took his seat.

J. B. Miller and M. Moskowitz, of No. 4, applied for exempt certificates. Application, on motion, was referred to the Committee on Certificates.

Communication from C. B. Bills and L. Fraser, requesting the opinion of the Board of Delegates as to the value of the Chief Engineer's services, was read. Mr. [illegible] moved to refer the communication back to Messrs. [illegible]

Mr. Norden moved that the Secretary be directed to communicate with the Committee of the Common Council, that in the opinion of the Board the Chief Engineer's services are reasonably worth $300 per annum. Carried.

On motion the Board adjourned.

STOCK EAST OF THE MOUNTAINS.—From a conversation had with Major Magone, who has just returned, we are gratified to learn that great pains are being taken by some of our neighbors across the mountains in raising valuable stock, both horses and cattle. Mr. Poutland, of the Dalles gave the Major a splendid buggy ride after a fine horse, sired by *Cyrenus*, for a distance of three miles, to Mr. Irwin's farm, where the celebrated horse *Norwich* is owned and kept. There the Major saw fifteen fine colts all in one pasture. He saw, also, one more at Mr. Snipes, who is a next door neighbor to Mr. Irwin and a part owner of this valuable thoroughbred. He saw one of *Belfounder's* colts which showed fine style and action. Mr. Irwin has a small herd of Durhams that will compare favorably with any in the State, and if the people east of the mountains do not give us an opportunity to see some of their fine stock at our next State Fair, we are confident it will not be the fault of Major Magone.

JUBILEE AT ASTORIA.—On Monday last, the day of the joint discussion at Astoria between Hon. J. G. Wilson and Mr. Slater, opposing candidates for Representative to Congress, the steamer *Josie McNear* had been chartered for an excursion up the Columbia river. With a large party on board and a brass band discoursing sweet music, they met the *Okanogan* at Cathlamet, and took Messrs. Wilson and Slater on board for Astoria. It so happened that the news of the passage of the bill for the Portland, McMinnville and Astoria land grant had not reached Astoria, and these gentlemen imparted the intelligence to the Astorians on board the *Josie McNear*. The band played more lively than ever, and upon reaching Astoria the people generally entered upon a regular jollification. This news suited them to perfection—and real estate has rapidly advanced ever since.

INDIGNANT.—A gentleman by the name of Penn, who had been up the Wallamet on the east side above Milwaukie, yesterday, on his return, arrived at the Macadamized Road ferry boat just in time to be too late to cross—but it made him cross to find this so—and as he could not get the ferryman to put him over there hurriedly drove up down to the Portland ferry just in time for the last boat, late in the evening. As he lives above the city some four miles, he felt very indignant that the Milwaukie boat did not put him across and save this extra travel, and nervousness, but we presume the employes at Milwaukie had completed their daily labors before his arrival.

ACCIDENT.—Mr. Charles Adams, conductor on the construction train of the O. & C. R. R., was badly injured in one of his knees by jumping from the train, at Mill No. 1, on Saturday. It was feared by his friends that he would lose the free use of his leg altogether by this accident, but in a conversation with his physician, Dr. Watkins, we learn that notwithstanding it is a bad case (a transverse fracture of the patella, or knee-cap) he has hope of success in curing it so as to make a sound limb.

DAUGHTERS OF REBEKAH.—Columbia Lodge No. 3, Daughters of Rebecca, was organized in this city on Thursday evening last. The officers for the part of the term, until July first, were installed as follows: W. W. Spaulding, N. G.; Mrs. Spaulding, V. G.; Mrs. Kidder, R. S.; J. W. Weatherford, P. S.; Mrs. J. W. Weatherford, T. The number applying for a charter was about sixty. The regular meetings will be held on the third Thursday evening in each month.

THE OREGON MEDICAL AND SURGICAL REPORTER.—The above periodical for April is at hand. This is the 6th number in the first volume. The address of Hon. J. H. Mitchell, Professor of Medical Jurisprudence, which was delivered on the 3d of March last before the graduating class of the Medical Department of the Wallamet University, fills nearly thirteen pages of the edition. It is a valuable paper, and is, very likely, highly prized by the [illegible].

THE SHOSHONE.—The announcement that the *Shoshone* would be brought through the *dalles* of the Columbia on Saturday last, was somewhat premature. The company propose, however, we understand, to bring her through to the lower Columbia as soon as possible. Capt. Miller and Engineer Buchanan, who were on the trip to Lewiston, have reached their homes, here and at Canemah.

PERSONAL.—Mrs. F. F. Victor, author of "The River of the West," has again taken up her residence in Portland. She continues to give her attention to matters of public interest, and is contributing to some of the leading periodicals and best journals in the country. She will leave the city to-morrow for a trip to Walla Walla, Lewiston and other points east of the mountains.

AINSLIE & DAVIDSON.—The new sash and door factory, corner of [illegible] and E streets, is owned by the above young men, who have made a very fair beginning in this fast rising city, and by strict attention to their duty they propose to keep pace with the development of the country in their enterprise. We wish them all possible success and commend them to the public.

REWARD.—Ten thousand dollars, more or less, will be paid [illegible] who fired that gun yesterday [illegible] about 4 30 [illegible] expression [illegible] less other persons [illegible] ing the steamer.

JUSTICE'S COURT.—[illegible] commenced [illegible] Philip R. Murphy vs. Nathan Pearcy to recover possession of a dwelling house [illegible] The case was [illegible] Judge A. [illegible] son Smith for [illegible] defendant.

NOVEL [illegible]—[illegible] this city convert [illegible] tomers in champagne [illegible] of a couple of [illegible] the nothing [illegible] here it [illegible]

NEW BOOK STORE.—As may be seen by advertisement in another column this morning, a new book store has been established opposite Skidmore's drug store, 124 First street. A general assortment of goods in that line will be kept for sale cheap. S. I. Barrett proprietress.

NOT ARRIVED.—The North Pacific Transportation Co.'s side wheel steamer *California*, due last night, had not arrived up to the hour of our going to press.

CITY.

INCIDENTS OF LIFE.—Sometimes it happens that peculiarly funny incidents transpiring in [illegible] last out. Yesterday one of these occurring within less than a thousand miles of East P[illegible] just happened and was reported [illegible]. It seems that a young lady was in a quandary as to which of two young gentlemen she shall receive the most attentions from. This indecision placed her in a very delicate position. One day last week she had engaged to go buggy riding yesterday with each gentleman. Finding herself [illegible] informant [illegible] she told them she would decide the matter by going with the first one that came for her on Sunday. According to this plan both were early and had need to the city [illegible] to get half an hour's start. By chance one happened to get half an hour's start at the ferry and he bore the lady off with him in his carriage. The unfortunate one came back soon after broken in spirit but our [illegible] returned his carriage in good condition to the livery establishment. The fortunate one returned in the evening with a broken carriage having upset along the road somewhere but he was reported to be in good spirits.

BOARD OF DELEGATES.—The Board of Fire Delegates met on Saturday evening at the usual hour.

Proceedings of last meeting read and approved. Committee on Certificates reported in favor of granting exempt certificate to A B Richardson. Adopted.

Thos. Moffett appeared and was sworn in and took his seat.

J B Miller and M Moskowitz of No 4 applied for exempt certificates. Application on motion was referred to the Committee on Certificates.

Communication from C Bills and L Besser respecting the opinion of the Board of Delegates as to the value of the Chief Engineer's services was read. Mr. Hardenbergh moved to refer the communication back to Messrs Bills & Besser.

Mr. Norden moved that the Secretary be directed to communicate with the Committee of the Common Council that in the opinion of the Board the Chief Engineer's services are reasonably worth $[illegible] per annum. Carried.

On motion the Board adjourned.

STOCK EAST OF THE MOUNTAINS.—From a conversation had with Major Magone who has just returned, we are gratified to learn that great pains are being taken by some of our neighbors beyond the mountains in raising valuable stock, both horses and cattle. JAUNT TO ASTORIA.—On Monday last the day of the joint discussion at Astoria between Hon. J. G. Wilson and Mr Slater opposing candidates for Representative to Congress the steamer *Fanny Troup* had been chartered for an excursion to the Columbia river. With a large party on board, and a brass band discoursing music, they met the *Okanagan* at Cathlamet, and took Messrs. Wilson and Slater on board for Astoria. It so happened that the news of the passage of the bill for the Portland, Dalles and Astoria land grant had not reached Astoria, and these gentlemen imparted it [illegible] to the Astorians on board the *Fanny Troup*. The band played more lively airs upon reaching Astoria the people [illegible] upon a regular jollification [illegible] them to perfection—and real estate rapidly advanced ever since.

We wish them all possible success and commend them to the public.

REWARD.—Ten thousand dollars more or less will be paid for the conviction of those fellows who fired that gun yesterday afternoon about 3½ and caused such a sweat amongst reporters, expressmen, hackmen and ten thousand or more other persons in Portland who were expecting the steamer.

JUSTICE COURT.—On Saturday an action was commenced in Justice Court before M. P. Bu[illegible]: Philip R. Murphy vs Nathan Pearcy to recover possession of a riding horse valued at $200. The case was continued until 11th June. Judge A[illegible] for plaintiff; J F Caples for defendant.

NOVEL SIGHT.—A tripe vender in and about this city conveys his articles of trade to his customers in champagne baskets borne upon the backs of a couple of diminutive asses. The scene would be nothing novel in parts of the Holy Land, but here it is a curiosity to most people.

NEW BOOK STORE.—As may be seen by advertisement in another column this morning, a new book store has been established opposite Skidmore's drug store 24 First street. A general assortment of goods in that line will be kept for sale cheap. E. L. Bassett proprietress.

NOT ARRIVED.—The North Pacific Transportation Co.'s side-wheel steamer *California*, due last [illegible], had not arrived up to the hour of our going to press.

PRECINCT BOUNDARIES.—In a previous edition we gave an outline of the precinct boundaries as changed by the present Board of Commissioners, but as there is a call for a complete statement of the lines we give it from the official record as follows:

[illegible] PRECINCT

[illegible] the Willamette river where [illegible] the centre of [illegible] Tenth [illegible] along the centre of Tenth street [illegible] of beginning.

[illegible] PRECINCT

Commencing at a point [illegible] along the centre of [illegible] the west line [illegible] thence westerly [illegible] of Madison street [illegible] to the place of beginning.

EXTRA PRECINCT

Commencing at a point where [illegible] of Seventh street intersects A street thence westerly [illegible] the west line of Nancy [illegible] land claim [illegible] where the west line [illegible] thence [illegible] the base line [illegible] thence west on the base line [illegible] the west line of the county thence southerly along the west line [illegible] Peter Smith road [illegible] the centre of Tenth street in the City of Portland [illegible] of Madison street thence easterly along the centre of Madison street [illegible] Seventh street thence northerly along the centre of Seventh street to the place of beginning.

SOUTH PORTLAND PRECINCT

Commencing at a point where the centre of Madison street intersects the west bank of the Willamette river thence westerly along the centre of Madison street to the centre of Seventh street thence southerly along centre of Seventh street to the centre of Hall street thence easterly along centre of Hall street to the centre of Fourth street thence southerly along the centre of Fourth street to the railroad bridge thence southerly along the line of the railroad to the north line of Terwilliger's land claim thence east on said north line to the Willamette river thence northerly along the west bank of the Willamette river to place of beginning.

OREGON PRECINCT

Commencing at a point where the railroad intersects the south line of Terwilliger's land claim thence west on said south line to the northwest corner of said Terwilliger's land claim thence southerly on the west line of said land claim to the section line of sections 9 and 16 in township one south range one east thence west to the northwest corner of section 16 thence south to the northwest corner of section 21 in township one south range one east thence west to the west line of county thence northerly on said county line to its intersection with the old Peter Smith road thence along the centre of said road to its intersection with Tenth street in the City of Portland thence northerly along the centre of Tenth street to the centre of Madison street, thence easterly along centre of Madison street to the centre of Seventh street, thence southerly along the centre of Seventh street to the centre of Hall street thence easterly along the centre of Hall street to the centre of Fourth street thence southerly along the centre of Fourth street to the railroad bridge thence along the railroad to the place of beginning.

NORTH PORTLAND PRECINCT

Commencing at a point where the centre of Fourth street intersects A street thence southerly along the centre of Fourth street to the centre of Madison street thence easterly along the centre of Madison street to the west bank of the Willamette river, thence northerly along the west bank of the Willamette river to the centre of A street, thence westerly along the centre of A street to the place of beginning.

MADISON PRECINCT

Commencing at a point where the centre of Seventh street intersects A street thence southerly along the centre of Seventh street to the centre of Madison street thence easterly along centre of Madison street to the centre of Fourth street thence north on the centre of Fourth to centre of A street thence westerly along centre of A street to place of voting in said precinct.

LADY FRANKLIN.—The Olympia *Tribune* of the 4th reports the arrival of Lady Franklin at Esquimalt, and says it is not true that she has come to this coast in search of relics of her long lost husband. She is represented as appearing healthy and smart for her age.

NEW BOOKS.—The following new books have just been added to the Portland Library: Luck and Pluck; the B O W C; Shifting Winds; Casimir Maremma; Hitherto; The Story of the Bad Boy; The Family and the Church; Phemie's Temptation.

NOTICED.—The condition of the crossings of First street, on Morrison have become the topic of conversation in home circles, and at the request of a lady acquaintance we invite the attention of the Street Commissioner to the nuisance.

HORSE BRUSHES.—In addition to the manufacture of curled hair for upholstering purposes, Mr D Metzger has turned his attention to the manufacture of horse brushes. A very good quality of brush is produced.

THE RIVER.—For two days past the river at this point has been gradually receding, but yet it is so slow as to be scarcely perceptible, and can only be indicated by an observation of the gauge at the O S N Co's wharf.

PROGRESSING.—Work on the Custom House and Postoffice at this city is progressing very smoothly at present. Several of the lower sills for the door ways of the first story were placed in position on Saturday last.

BUILDING MATERIALS.—The bark *Almatia* brings 28 long iron pieces for use in the *frame* of the stone structure building in this city for a Custom House and Post Office.

SALEM GAS WORKS.—The bark *Almatia* brings a number of articles for the prospective gas works at Salem.

MISCELLANEOUS ITEMS

There are only three Republican journals published in Georgia.

New York city estimates its population at 1,000,000 of whom about 15,000 own all the real estate.

The Nashville *Banner* gets off the following: Inquiring yesterday of an old darkey who was fishing in the river "What luck?" he replied "De fish is like de Democrats arter us niggers' votes. Dey wants all de bait but won't hang on de hook."

The three following canards have at length been exploded namely: The engagement of Chief Justice Chase to Miss Constance Kinney, Senator Ames to Miss Blanche Butler and Gen. Sheridan to Miss Pauline Harris. There is not the slightest foundation for either of them.

Henry Ward Beecher, in concluding his speech at the Brooklyn Fifteenth Amendment jubilee, referred to Senator Revels who was present saying, "And now sir I tender to you the right hand of fellowship." They stood up together, hand in hand, and the audience went wild with enthusiasm.

The death of Gen. Thomas brings to mind two epigrams which were current just after the battle of Nashville:

Thomas still moving —very good,
The cause is plainly understood—
He doesn't like his neighbor—Hood.

Where Hood now is it were not hard to tell
He said he'd go to Nashville or to hell
And hasn't gone to Nashville—very well.

The New York *Sun* contains a sensational story relative to the alleged discovery of a portion of the long sought treasures hidden by Capt. Kidd the pirate. The discovery was made by Sheriff Abram Winants near Rossville Staten Island. He was walking in his garden when he saw two or three copper coins among the shrubbery vines [illegible] beneath the surface he unearthed 532 pieces of gold, silver and copper all of great age and so mouldy and worn as to be scarcely recognizable. One was dated 10[illegible] and bore a legend which could not be translated. Six of the coins have been sent to the Smithsonian Institute at Washington. Many of the copper coins bore the date of 1774 and were clearly of English origin.

The key that opens the door to fortune is quick sales and small profits and he who adopts this plan and sticks to it is bound to succeed. That accounts for R L Stone's prosperity.

TIME TRIES ALL THINGS.—The transit from one season to another has a world of effect upon the styles of clothing people wear. [illegible] Time which tries all things has proved [illegible] Kohn & Fake are ready and prepared for the season with every grade of goods necessary to please the most fastidious. Give them a call and examine their stock [illegible].

Every family should have a Sewing Machine and no one can be so surely and cutirely depended upon as the Grover & Baker. Wm Curnier & Co Agents.

THE PEOPLE SAY

That PRATT'S ABOLITION OIL is the best remedy in the world for the complete and speedy cure of Rheumatism, Neuralgia, Lame Back, Gout, Chilblains, Sprains, Bruises, Stiff and Swollen Joints, Contracted Cords and Muscles, Pains in the Breast and Sides, Nervous Headache, Toothache, Earache, Sore Throat, Colic, Cramps, Cholera Morbus, Diarrhoea, and all internal and external aches and pains. Put up in two sizes—Price 50 cents and $1 00. Circulars with full directions around the bottles. For sale by all druggists.

THE BLOOD AND LIVER

Life and health depend on their condition. PRATT'S NEW LIFE purifies the blood, heals old sores, expels from the system all scrofulous humors, cutaneous eruptions and impure matter. It stimulates the Liver and Kidneys to healthy action, regulates the Bowels, cures Piles and Dyspepsia. Persons subject to Billious attacks and those suffering from the effects of Fever and Ague, or any injudicious use of Quinine and Mercury will find PRATT'S NEW LIFE invaluable. Price $1 00.

An Old Fallacy Exploded

Thirty or forty years ago it was the fashion to administer powerful purgatives as spring medicines. Terrific doses of salts and senna, calomel and jalap or glauber salts were given to all the members of a family, whether sick or well, by way of preparing them for the warm weather in prospect. This pernicious custom is nearly obsolete but there are some old Bourbons of private life, incapable alike of forgetting anything or learning anything, (who obstinately cling to it still. Nothing could be so pernicious, more utterly unphilosophical than such an onslaught on the vigor and elasticity of the system. In order to enable the physical structures to resist the enervating effects of spring damps and summer heats, it should be toned and reinforced, not relaxed and weakened. The best medicine agent for that purpose is Hostetter's Stomach Bitters. Its effect is to tone the stomach and liver, gently relieve the bowels and obstructions, brace the nerves, improve the quality of the blood, stimulate the appetite and cheer the spirits. In this improved condition the organization is incapable of resisting unhealthy influences which would prostrate an enfeebled system. A vigorous digestion is absolutely essential to health, and there is no danger of the stomach faltering or failing in its important office if the genial vegetable elixir is taken regularly as a stomachic. None of the tonic tinctures or extracts will supply the place of the Bitters, for the simple reason that they operate as astringents only. In fact in ordinary practice five or six prescriptions would be required to produce separately the beneficial results which are effected simultaneously, and harmoniously by this single specific.

REPUBLICAN PLATFORM

The Union Republican party of Oregon in Convention makes this declaration of its principles and policy:

1st Unfaltering devotion to the Union first, last, and forever, and unwavering fidelity to the Constitution and its amendments and to the laws of our National Legislature.

2d We wholly approve the principles and policy of the administration of President Grant as carrying into practical application the principles for which we have successfully striven. And we particularly commend these points in his Inaugural Address wherein he declares—"let it be understood that no repudiator of one farthing of our public debt will be trusted in public places, and it will go far towards strengthening a credit which ought to be the best in the world." and "I would protect the law abiding citizen whether of native or foreign birth wherever his rights are prejudiced or the flag of our country floats"; and "I will have no policy to enforce against the will of the people."

3d We have confidence that the Administration will wisely and firmly protect the interests and sustain the dignity of the Nation in respect to other nations and especially with regard to our just claims against Great Britain.

4th We denounce all forms of repudiation as a national crime —and the national honor requires the payment of the public indebtedness in the uttermost good faith to all creditors at home or abroad not only according to the letter but the spirit of the laws under which it was contracted. And for this purpose we favor a strict economy in the Administration of the National Government and the application to such payment of all surplus revenue from whatever source derived, and that taxation should be equalized and reduced as rapidly as the national faith will permit.

5th We make no distinction between citizens whether of foreign or native birth and that we sympathise now and ever with men of all nationalities striving for self government.

6th That we are opposed to any change in our naturalization laws which shall admit to citizenship any foreigners not now entitled thereto under said laws.

7th We favor a judicious system of railroad and river improvements in Oregon in order to develop our resources and invite settlement of our unoccupied territory, and for this purpose insist that Congress should make us liberal grants of aid.

8th We are in favor of a tariff for revenue, with such discriminations in favor of our domestic manufactures as will not diminish its efficiency for the purposes of revenue.

9th We favor universal amnesty to the people of those States lately in rebellion which have been restored to full status in the Union.

10th We are in favor of fostering the cause of education and are opposed to any diversion of the common school funds of this State to any other purpose than the support of common schools.

11th We recognize in the Union Republican party the measures and men who saved the Government from destruction, and that its continuance in power is the only safeguard [illegible] and peace and prosperity. And with this platform we appeal to the voters of Oregon for their suffrages and support.

G. VENARD.
CHARTRES COFFEE!
Manufactory Established in June, 1851.
STEAM POWER, NOS 625 AND 627 FRONT ST.

HAS CONSTANTLY ON HAND GROUND AND ROASTED COFFEE, GREEN COFFEE of the best qualities, CREAM OF TARTAR and SPICES of all sorts.

The undersigned who has always enjoyed public confidence for the excellent quality of his Coffee, neglects nothing to justify the good name acquired by his productions, the sale of which daily increases. The acknowledged superiority of his merchandise, which commands here and in the markets of the interior a relatively higher price, excites the cupidity of some manufacturers, and every day he sees increasing the number of those who, by counterfeit or imitation of his mark, seek to deceive the public, palming upon them their inferior productions for the genuine G. VENARD CHARTRES COFFEE. This fraud can deceive nobody after a trial, but only adds to the favorable opinion of the consumers, the very flattering though unwilling testimony of the counterfeiters. Nevertheless buyers should be forewarned and placed on their guard against this practice.

BEWARE OF COUNTERFEITS.

Each package bears the signature of G. VENARD.

ROPE OF ALL SIZES for sale by
16 H W CORBETT & CO.

Prof. Hunt on Volcanoes and Earthquakes.

The following is quoted, somewhat condensed, from Prof T. Sterry Hunt:

"Judging from the known properties of the rocks with which we are acquainted, solidification should commence not at the surface but the center of the liquid globe, a process which would moreover, be favored by the influence of pressure. This augments the melting temperature of matters which like the rocks and most other solids, became less dense when melted, while it reduces the melting point of those which, like ice [or bismuth,] become more dense by fusion. Pressure, moreover, increases the solvent power of water for most bodies, whose solution may be described as a kind of melting down with water into a compound whose density is greater than that of the mean of its constituents. The theory adopted by Hopkins and Scrope, is briefly as follows. The earth's center is solid, though still retaining the high temperature at which it became solid. At an advanced stage in the solidifying process the remaining envelope of fused matter became viscid, so that the decent from the surface of the heavier particles, cooled by the radiation, was prevented, and a crust formed, through which cooling has since gone on very slowly. There were thus left between this crust and solid nucleus, portions of yet unsolidified matter (or even perhaps a continuous sheet,) and it is in this that we are to find an explanation of the phenomena of volcanoes and earthquakes.

This theory is an approximation to the one which I adopt, though differing from it in some important particulars. While admitting the existence of a solid nucleus and a solid crust, with an interposed stratum of anti-liquid matter, I consider this last to be, not a portion of the yet unsolidified igneous matter, but a layer of material which was once solid, but is now rendered liquid by the intervention of water under the influence of heat and pressure. When in the process of refrigeration, the globe had reached the point imagined by Hopkins, where a solid crust was formed over the shallow molten layer which covered the solid nucleus, the farther cooling and contraction of this crust would result in irregular movements, breaking it up, and causing the extravasation of the yet liquid portions confined beneath. When at length the reduction of temperature permitted the precipitation of water from the dense primeval atmosphere, the whole cooling and disintegrating mass of broken-up crust and poured out igneous rock would become surrounded with a deep layer of disintegrated and water-impregnated material, the ruins of its former envelope, and the chaotic mass from which, under the influence of heat from below and of air and water from above, the world of geologic and of human history was to be evolved."

Growth of European Cities.

One of the most remarkable phenomena of the times in which we live is assuredly the surprising increase of the population of the principal European cities. The completion of so many lines of railway has no doubt, largely contributed to this result, by facilitating a change of domicile, and the great towns seem to be gradualy becoming more and more the centers towards which the business, talent, and learning of the respective countries graviate.

London and Paris have at present about twice as many inhabitants as in 1832; Vienna has rather more than doubled its population; and Liverpool can boast of treble the number of souls it contained in the same year. Still more remarkable has been the progress of Berlin, the actual population of which, compared with that of 1832, is in the proportion of 3½ to 1. In the last mentioned year the metropolis of North-Germany was the ninth city in Europe, in point of populousness; today it is the fourth, as the following table will show.

	1832.	1869.	Increase per cent.
London	1,624,000	3,214,000	98
Constantinople	1,000,000	1,500,000	50
Paris	890,000	1,950,000	118
St. Petersburg	480,000	667,000	37
Naples	358,000	600,000	67
Vienna	310,000	640,000	107
Dublin	300,000	362,000	21
Moscow	280,000	420,000	50
Berlin	250,000	800,000	220
Lisbon	240,000	340,000	44
Manchester	228,000	350,000	40
Amsterdam	230,000	260,000	12
Glasgow	202,000	401,000	99
Liverpool	190,000	520,000	174
Madrid	190,000	390,000	106

We may remark that in the population of Vienna, and perhaps some other towns, several small places in the immediate neighborhood (*Vororte*) are included. Were we, on the same principle, to comprehend the inhabitants of Charlottenburg and several other localities almost touching Berlin in the population of the capital, the return would be considerably larger.

From this table it is evident that the North German capital has, in the last forty years, more than overtaken St. Petersburg, Vienna, Naples, Dublin and Moscow. In 1861 the population of Berlin had already risen to 552,000, in 1867 it was found to be 702,000, and the policy reports show that it must at present be at least 800,000. A census will be taken in the present year, but from a variety of causes into which our space does not permit us to enter, the returns will probably remain a few thousands behind the truth.—*North German Correspondent.*

The Enchanted Mountain in Georgia.

[Chattanooga Correspondence Cincinnati Commercial.]

In one of the northwestern counties of Georgia, and not a hundred miles from here, is a natural curiosity called, from Indian tradition, the Enchanted Mountain.

The mountain is not large, and there is nothing remarkable about it until you get on top, when human tracks, or impressions in the solid rock which appear to be human tracks, are seen.

How these almost human tracks came to be impressed on the rock of this mountain, is one of the many mysteries of this mysterious land of ours. There were a great many traditions among the Indians in regard to this mountain, but none of them are satisfactory, and it probably never will be known who it was that left their tracks upon the summit of the Enchanted Mountain. One of of the Indian traditions is curious, for it shows that they had a vague idea of Noah's flood, before the advent of the white man. The story had been handed down among the aborigines, that it was the landing place of the great canoe, after the deluge, and the tracks were made by the people in the canoe, as they stepped out upon the rocks which had been made soft by the long inundation.

One of the tracks, and the largest one, is seventeen and a half inches in length and seven and three-fourths inches wide. Unlike the others, it has six toes. This must have been Noah's track, and if there was anything in the Mosaic account of the flood concerning the size of Noah's feet, we might have a confirmation of the Indian tradition. The size of the track would indicate that he wore number eighteens.

There are 136 impressions of feet and hands visible on the face of the rock. The smallest foot track is four inches in length and of perfect shape. Another Indian tradition is that a great battle was once fought there, and the large track with six toes is that of the victorious commander. This is essentially Indian, as their ideas of mental greatness were circumscribed by physical size. To be a great warrior with them was to be of immense size and strength. They did not recognise the size and quality of the brain as having anything to do with it.

But who made these tracks upon the Enchanted Mountain? If it was human feet, then whose feet, and at what age of the world? If they were chiseled out by human hands, whose hands, and when? Alas, that the learning of the world amounts to so little, for no man can tell.

A member of the Mississippi Legislature arose the other day to advocate the passage of a bill for the reclamation of the waste lands of the Mississippi Valley, and thus began: "Mr. President—All life begins and centers in God. God is the center of the life of all space." Owing to the want of capitals in the printing office of the Jackson *Daily Pilot*, in which the speech is reported in full, this sublime sentiment had to be put in common type.

A colored man in Evansville, Indiana, said "I don't care particularly about voting at this election, except for one thing. I want to neutralize the vote of a big Democrat who pelted me with stones last summer. When I remonstrated, the big Democrat asked me 'What was I going to do about it?' Im going to do something about it Monday.

Republican Platform.

Adopted by the Republican Territorial Convention at Vancouver, April 21st, 1870.

Resolved, That the Republicans of Washington Territory are in full accord with the great Republican party of the Nation, the party that maintained and carried the Government through the most powerful and gigantic rebellion known to history, notwithstanding the aid and assistance rendered by enemies abroad and traitors at home; the party that successfully triumphed over the arms of the rebels at the South, that removed the foul blot from the national escutcheon that disgraced us in the eyes of the civilized world, that sustained our financial credit beyond the hopes of the most sanguine, that has shown a magnanimity and forbearance to the vanquished that challenges the admiration of mankind, and that ever true to the best interests of the people, has opened a highway for the interchange of products of the Eastern and Western portions of the continent, that will long be marked as one of the wonders of the age.

Resolved, That we regard the administration of President Grant as eminently successful, that the difficult questions which were presented by the anomalous condition of eleven States at the close of the rebellion, have been settled in accordance with the soundest principles of justice and political economy, and we confidently look for a speedy, harmonious and perfect restoration of the constitutional relations between all the States and the General Government.

Resolved, That the management of the finances by the Legislative and Executive branches of the Government by the present Administration, has been wise, prudent and careful, and we refer with pride and pleasure to the fact that no financial convulsions have occurred, that the credit of the Government has been sustained, and that the relative value of specie and paper currency has approximated as rapidly as was consistent with the safety of our commercial and financial affairs.

Resolved, That the bold and unflinching position assumed by the Administration in regard to the *Alabama* claims has already produced the most salutary results, which are evidenced not only by the manifest desire of Great Britain to re-open negotiations but by a willingness to conduct them in conformity with recognized principles of international law.

Resolved, That the National and Territorial Governments should be conducted in all their branches with the most rigid economy; that the necessaries of life should, as far as practicable, be exempt from direct or indirect taxation; and that we are opposed to repudiation in any form, believing that the honor of the nation is of more importance than any pecuniary consideration.

Resolved, That we earnestly urge upon the National Government the speedy settlement of our rights to the San Juan and other Islands lying between the Canal De Haro and Rosario Straits, and the acknowledgement by Great Britain of our just claims thereto; and the importance of opening negotiations for the purpose of securing the annexation of British Columbia to the United States.

Resolved, That the North Pacific Railroad and its branches is a work of national importance; hence we call upon the General Government for the most liberal aid and assistance to secure its early construction and completion.

TO THE UNFORTUNATE.

NEW REMEDIES, NEW REMEDIES

Dr. Gibbon's Dispensary,

623 KEARNEY STREET, NEAR COMMERCIAL, San Francisco. Established in 1854, for the treatment of Sexual and Seminal Diseases, such as Gonorrhœa, Gleet, Stricture, Syphilis in all its forms, Seminal Weakness, Impotency, etc. Skin Diseases (of years standing) and Ulcerated Legs successfully treated.

Horrible Diseases.

How many thousands of persons, both male and female, are there who are suffering out a miserable existence from the effects of secret indulgences, or from virus absorbed into the system! Look at their pallid, emaciated and disfigured faces and their broken-down constitutions, disqualifying them for the happiness of marriage or the enjoyment of life. In this horrid situation thousands suffer until death closes the scene. Let parents, guardians, friends, attend to those who are suffering with any of these horrible life destroying maladies, and see that they are cared for and cured before it be too late. Send them immediately to Doctor Gibbon, a physician who has made private diseases his especial study for years, and who is certain to cure the most inveterate cases without mercury or any injurious drugs. It is important to those who are afflicted, or to those who are interested in the welfare of their friends, to be careful of the many pretended doctors who infest all cities, publishing their skill in curing all diseases in a few days, imposing upon the public by using the names of eminent physicians from Europe and other places. Be therefore careful and make strict inquiry, or you may fall into the hands of those charlatans.

Seminal Weakness.

Seminal Emissions, the consequence of self-abuse. This solitary vice or depraved sexual indulgence, is practised by the youth of both sexes to an almost unlimited extent, producing, with unerring certainty, the following train of morbid symptoms, unless combatted by scientific medical measures, viz: Sallow countenance, dark spots under the eyes, pain in the head, ringing in the ears, noise like the rustling of leaves and rattling of chariots, uneasiness about the loins, weakness of the limbs, confused vision, blunted intellect, loss of confidence, diffidence in approaching strangers, a dislike to form new acquaintances, a disposition to shun society, loss of memory, hectic flushes, pimples and various eruptions about the face, furred tongue, fetid breath, coughs, consumption, night sweats, monomania and frequent insanity. If relief be not obtained, should apply immediately, either in person or by letter, and have a cure effected by his new and scientific mode of treating this disease, which never fails of effecting a quick and radical cure. Dr. G. will give One Hundred Dollars to any person who will prove satisfactorily to him that he was cured of this complaint by either of the San Francisco quacks.

MARRIED MEN,

Or those who contemplate marriage, who are suffering under any of these fearful maladies, should not forget the sacred responsibility resting upon them nor delay obtain immediate relief.

DOCTOR GIBBON is responsible, and will give to each patient a written instrument, binding himself to effect a radical and permanent cure, or make no charge.

CURED AT HOME.

Persons at a distance may be CURED AT HOME, by addressing a letter to Dr. Gibbon, stating case, symptoms, length of time the disease has continued, and have medicines promptly forwarded, free from damage and curiosity, to any part of the country, with full and plain directions for use, for Ten Dollars, sent in registered letter or through Wells, Fargo & Co.

Caution to the Unfortunate.

Beware of the San Francisco quacks and pretenders who, with bogus sworn-to certificates, dupe the unwary. Some of the self-styled doctors, whose names are to be found in the daily and weekly newspapers of San Francisco and other places, are tradesmen, and became too lazy to work at their trades. Some are tinsmiths, shoemakers, newspaper carriers, intelligence office keepers etc. Look over the San Francisco Directory, and you will not find their Medical Institutes in it, but you will find their former occupations in it. Look at the Directory for 1862 and 1863. The only way to avoid imposition is to make enquiry—it will cost you nothing, and may save you many regrets; for, as advertising physicians, in eight cases out of ten, are bogus, there is no safety in trusting any of them until you know who and what they are. Dr. Gibbon does not deceive people by exhibiting bogus files, certificates, pretended patient's letters, etc. Dr. Gibbon will satisfy persons who may call at his office of his ability to treat diseases that he proposes to cure.

THE WESTERN MONTHLY FOR 1870.

THE CONDUCTORS OF THE WESTERN MONTHLY have aimed to produce a Magazine which should properly represent the growing Literature of the great Mississippi Valley—hitherto without a representative among the Literary Magazines of the country. Encouraged by the hearty appreciation and support thus far extended by the public, they will spare no pains or expense to insure the future excellence of their magazine, and make it attractive and valuable to all.

The Third Volume of this Periodical begins with the January number. In this number will be commenced a new Serial Story entitled "The Rolling Stone," by George Sand, which will be the greatest work of this great novelist, and one of the most readable stories ever produced.

The Steel Portraits and Biographies of Prominent and Representative Western Men, which have proved so popular and distinctive a feature of the Magazine, will be continued. In addition to the above, THE WESTERN will contain articles in Prose and Poetry from an able corps of Regular Contributors, among whom are the best writers in the West.

Terms of the Western:

Single Copy, $4 per year, in advance; Five Copies for $16; Ten Copies for $30, and each additional copy $3. For each Club of Fifteen or more, an extra copy will be furnished gratis. Specimen number mailed to any address on receipt of 30 cents.

Our Premium List:

For Three New Subscribers, with $12, we will send a copy of Dr. J. W. Foster's "Physical Geography of the Mississippi Valley," Price, $3 50—a work which should be in the hands of every person interested in the Great West—or a neatly bound copy of THE WESTERN MONTHLY for 1869. Vols. I and II.—Price $4.

For six New Subscribers, with $16, one copy of Macaulay's "History of England," 5 Vols. 12mo. Cloth. Price $7 50.

For ten New Subscribers, with $30, a copy of Worcester's Quarto Dictionary, or Webster's Unabridged Dictionary, Price, $12.

For Twenty new Subscribers, with $80, Putnam's new edition of Washington Irving's Works, complete, in [illegible] Price $42.

For Forty New Subscribers, with $120, either of the following Sewing Machines: Grover & Baker, Singer, Florence, Wheeler & Wilson, Howe, Price $55.
